

Schedule of Rates and Fees

Fiscal Year 2018/2019

This Fee Schedule reflects the City's minimum processing costs. City services over and above the minimum project costs specified herein are recoverable on a time and materials basis. These costs may include, but are not limited to: attorney fees, staff time, and engineering fees. All staff time charges are based on the current City of Cloverdale billing rates applicable to the position and department completing the service.

If the costs incurred for a project are in excess of the minimum, a deposit for future processing will be required. Failure to replenish deposits in a timely manner may delay project processing.

For any activity requiring review by the City Attorney, the applicant shall reimburse the City for actual costs incurred from the City Attorney. The Director of the applicable department shall determine the appropriate deposit to be submitted by the applicant for recovery of City Attorney costs.
